

# MEDICATION LOG

**Directions:** Complete the chart below, listing all medications (prescription, over-the-counter, vitamins and supplements) your child takes. If the directions for a medication changes, mark through that row and begin a new row with updated directions. Be sure to bring this log with you to all of your child's medical appointments so you can review the information with your child's providers.

Start date	Name of Medication	Dosage	Frequency	What is it used for?	End date	Comments

This tool was developed with funding from the federal Maternal and Child Health Bureau, Health Services and Resources Administration under grant #H98MCO3905, funded to the USC UCEDD, Childrens Hospital Los Angeles, through its initiative, *Project Access: Improving Care for Children with Epilepsy*. Support was also provided by two other partners in *Project Access*: the National Initiative for Children's Healthcare Quality (NICHQ), under grant #U23MC038893, and the Epilepsy Foundation, under grant # U23MC03909.
